A unique and an excellent experience of wilderness trip for Newcomers or advanced kayakers. The Sun Koshi is used for both rafting and intermediate kayaking. It has grade 3 to 4 rapids. The most common put in the point of the Sun Kosi river trip is Dolalghat, at a height of 620 m and it ends at the Chatra Gorge at 115m covering a distance of around 272 kilometres. The Sun Koshi River, also known as the "River of Gold", is considered to be one of the top ten best rafting/kayaking rivers in the world. Day to Day Itinerary

Day 1

Drive(3 hrs) to Dolalghat(put in point). Short raft to camp at Tarang Gaun. Stay overnight at tented camp

We'll drive to Dolalghat by private bus very comfortably which may be approximately 3 hours journey from Kathmandu. Dolalghat best known as put in point as it makes people experience the real thrill of rafting in the high and rapid current of river flow. We're definitely not rafting the whole day, after a short raft we'll pin our camp to Tarang Gaun and can have campfire night on our own.

Over Night at Tarang Gaun

Included meals (Breakfast + Lunch + Dinner)

Day 2

6 hrs rafting to campsite at Khunkot. Stay overnight at tented camp.

Our 2nd day will start with rafting to the campsite at khunkot. It will be 6 hours long raft so everyone must be prepared for it. It'll definitely be fun but more than that again today there will be staying at Dumja village. As previously we'll stay there for the night delve around the mountains.

Overnight at Dumja village

Included meals (Breakfast + Lunch + Dinner)

Day 3

5 hrs rafting to campsite at Likhu Khola. Stay overnight at tented camp.

Our 3rd day of Sunkoshi is also Gonna be fun, we'll raft for 5 hours long in the Likhu Khola (River) experiencing the real thrill of rafting in Likhu River. The path to choose is straight through the middle avoiding holes on either side of the river. A few kilometres down and the confluence of the Tama Koshi (River of Copper) and Sun Koshi are encountered on our way. As 5-hour long raft is really long, we'll have to take rest at the nearest village with campfire obviously.

Overnight at nearest village

Day 4

6 hrs rafting to campsit at Harkapur Village. Stay overnight at tented camp.

Again after a warm morning and healthy Breakfast, we'll raft from Likhu Khola to Bank of Harkapur village for about 6 hours. The valley flow here is changing in terms of the river's width and flow of the river due to the climate. At Bat Cave tunnel, the crew takes the rapid seriously and everyone should, Discovery World Trekking makes sure of every possible safety measures. The size of the rapids and current on this river will definitely surprise you. Here people of the ethnic group Newars and others always wait to see the adventurers pass by cause to see people raft is also a kinda thrill. Floating down after lunch, the water splashes across the boat but the waves are no threat, so don't worry about that. Later, a nice stretch of sandy beach will be chosen for the campsite for the overnight stay.

Overnight at at Campsite

Included meals (Breakfast + Lunch + Dinner)

Day 5

6 hrs rafting to campsite at Rai Ghat. Stay overnight at tented camp.

Who doesn't like rafting when you book your rafting trip, yet again a long 6-hour raft. Rafting from Harkapur lets you face with IV class rapids as you enter the chest of the Dudhkoshi River. Amidst the exotic eco-system and natural vistas, the river gets huge below the Dudhkoshi and flow through a broad valley after mellowing down to the river. While comparing with Sunkoshi, Dudhkoshi is much colder(it's cold). After passing through thrilling rapids like Rapid Punch, Judy, etc. With this, our day will come to an end.

Overnight at Rai Ghat in Tented Camp.

Included meals (Breakfast + Lunch + Dinner)

Overnight at BarahChhatra
